OBJECTIVE

A fresher, dedicated to clean and efficient code in software development, with a strong commitment to problem-solving and continuous learning.

SKILLS

- C
- Java
- Python (basics)
- Javascript
- MERN Stack
- MySQL
- Mongodb
- Docker
- UI/UX

TOOLS

- Git/Github
- VS code
- Postman, Insomnia
- Docker desktop
- Mongodb Compass, Atlas Cloud
- MySQL Workbench
- Figma

AREAS OF INTEREST

- Full Stack Development
- Data Structures and Algorithms
- Cloud Computing

PROJECT

- **Online Code Space**
  a streamlined platform for writing, compiling, and executing code in C, C++, Java, JavaScript, and Python. It facilitates immediate feedback, making it an effective tool for learning and development without the complexity of local installations.

WORK EXPERIENCE

- **Intern at BYTS Services Private Limited [byts.co.in]**   From Oct 2024
  As a technical trainer focused on problem-solving using Data Structures and Algorithms.

- **Intern in Cloud Computing Laboratory at BIT**   Sep 2023 - 2024
  As a Web Developer and Technical Trainer for freshers, exploring cloud technologies and enhancing programming skills.

EDUCATION

- **Bannari Amman Institute of Technology**
  (2022-2026) BE Computer Science and Engineering 8.02 CGPA till 4th semester

- **HSC -** (2020-2022) 89.5%
- **SSLC** - (2019-2020) 89.8%
